

# Servers of the Divine Plan 1-day workshop

**Linko Management Consultancy TB** was founded by Tom de Winter. Tom studied social sciences, Authentic Haptonomy, and cranio-sacrale therapy. Tom has a practice in Amsterdam and Oosterbeek, near Arnhem The Netherlands. Tom has over 30 years of experience as an international workshop trainer for companies and members of the public. In his workshops Tom guides participants in their mental, emotional and spiritual development by means of bodywork.

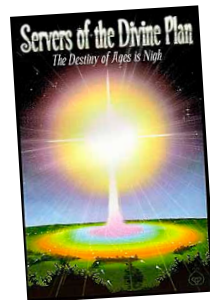

Tom de Winter created this 1-day workshop after reading the book **Servers of the Divine Plan**. This book, written by a group active in this field, helped him remember 'who he was'.

It is written in your soul and in cosmic laws that you will serve the Divine Plan. Humans that open themselves to a deeper awareness can bring to the surface memories from their spiritual soul to an awakened state.

## Contents of the workshop

- Through meditation and practical exercises participants will discover whether they are Servers of the Divine Plan.
- Participants who already started to remember 'who they are' will experience a rise in vibrations of the Aquarius Age. As a result they will become more conscious of their task on this planet, the mission of their Soul.
- Participants will receive practical advise on how to change their lives according to this new awareness.

We advise you to read the book Servers of the Divine Plan before you apply for this workshop. You can download the book for free at [www.thenewcall.org](http://www.thenewcall.org)

**Servers of the Divine Plan..** should act as catalyst seeds and offer their fellow men a bridge into the future. Servers will assist others in unveiling the memory of their Souls in order to launch the process of Spiritual Awakening. This is of great importance in the current breaking point on this Planet. Servers will assist the human race to take a step forward, to gain believe and trust in their own strength and to unite their energies to shift into the New Universal Consciousness.
